2001

Professional Practice

NoMa Studio

2017• Present

Owner and Senior Architect in private practice. Projects include Design+Build coastal residences in Europe, restaurant and brand design, and Exhibit design in the US. The studio also co-designs and consults on larger scale projects such as developing schematic design and construction details for a high-end senior living complex with 340 units of 80,000 sqm.

Gottesman Architecture

2013•2017

Senior architect and lead on large scale projects including urban municipal projects, a 14 villa mountain complex in Corsica, and cast in place concrete projects with bespoke carpentry and metalwork. In addition to designing and coordinating with local and international consultants, produced all sets for bid, including complete coordination and detailing with various collaborators and international manufacturers. Responsible for detailing and materials, weekly client contact & meetings, and management of design, construction, and inspection phases.

Architecture Urban Planning

2008•2013

Independent consulting architect working as project architect and project manager on various projects with a wide range of urban scales. Managing numerous projects in urban planning to promote urban renewal & sustainable design, and large-scale feasibility studies for campuses.

Pelli Clarke & Partners

New York NY 2004•2008

Key project architect for *The Visionaire*, a thirty-five-story residential green building in the Battery Park City area of Manhattan. Chief designer of unitized curtain wall, and main contact with client and cw manufacturer. Overseeing weekly project meetings with the client and consultants, developing the design from the pre-schematic, schematic, design development, and construction document phase. Cutting edge, award winning, green building that required extensive coordination efforts with consultants and the city, on a fast-track schedule and very stringent time constraints.

Venturi Scott-Brown & Associates

Philadelphia PA 2001• 2003

Junior architect on various design and planning projects in close coordination with Architect Robert Venturi on projects including: Museum competitions, Ohio State Biomedical Tower Plan, and Lehigh Valley Hospital Addition and Renovation. Responsible for conceptual design through to construction documents details and client presentation materials.

Rafael Viñoly Architects

New York NY 1996•1999

Three consecutive summers as full time model maker on international competition entries in the fabrication of models, carpentry, and shop in an intensive process of direct coordination with Architect Rafael Viñoly and shop manager Takeshi Miyakawa.
